

Dear Partners and Sponsors of E-Bike Africa

In the light of a climate change denier being the new President of the United States, I am more than ever determined to act on the protection of our beautiful planet. This is what I have done as an e-bike ambassador and, in particular, with the E-Bike Africa expedition from Glasgow to Cape Town. Project partner Bruce MacLeod, who represents the Scottish Charity, The Purple Heart Network, and I share the same ambition of promoting sustainable mobility, renewable energy and raising awareness of climate change.

As you know, we had to interrupt our journey in Paris after we presented the project at the UN Climate Conference COP21 in December 2015. Bruce was suffering from an ongoing shoulder injury all of last year and finally had an operation last December. The estimated post surgery recovery time is 4-6 months. The surgery went well and we hope that in about two months from now we can make a prognosis about the further schedule of the tour.
